## ZIEGLER at the FLORIAN 2024

Giengen, September 2024

Visit ZIEGLER at the FLORIAN.  
You will find us at stand F30, outdoor area 3.

The following exhibits will be on display at the ZIEGLER booth:

- HLF 20 on MAN chassis
- MLF with Z-Cab on Iveco Daily chassis
- GW-L 2 on MAN chassis
- ZIEGLER Rolling container
- Ultra Power
- Digital products Z-Connect and Z-Remote

### Rolling container for every application

At this year's FLORIAN, ZIEGLER will not only be presenting its latest firefighting vehicles, but also the newly designed and further developed Z- roll containers. These roll containers have been specially designed for a wide diversity of deployment scenarios and are characterized by their high level of functionality and versatility. The Z roll containers make it possible to store equipment optimally, transport it safely and use it flexibly and efficiently during operations.

At the FLORIAN trade fair, various versions of the roll containers will be presented, which are designed for a wide range of deployment scenarios – whether for firefighting, technical assistance or disaster control.

### Digital services at ZIEGLER

With our digital products Z-Connect and Z-Remote, which can be found in all vehicle exhibits, ZIEGLER is presenting the new series-ready system. With this system, ZIEGLER offers digital services that are constantly being expanded in terms of their functions, but also – and this is particularly important – offer interfaces to all standard industry platforms and service providers. With the implementation of Z-Connect, the step towards operation management with real-time vehicle data has already been realised with the help of our industry-leading partners, among others.

As one of the founding members of IMBOS e.V., ZIEGLER will once again be on site this year as a contact partner for connecting with other founding members of the association

### ZIEGLER Ultra Power

ZIEGLER is pleased to announce that the proven Ultra Power is available again.

This robust and powerful solution has proven itself as a reliable partner in numerous operations and is now once again available to our customers. At a time when availability

Albert Ziegler GmbH · Giengen/Brenz · Germany

and reliability are more important than ever, the Ultra Power offers exactly the quality and performance that emergency services can count on.

### Focus on customer orientation and quality

“Our top priority is to supply our customers with products they can trust” says Heiko Riek, Head of Sales Equipment and Components at ZIEGLER. “The Ultra Power has more than demonstrated its strength in practice. Whilst we are currently still working on bringing the new Ultra Power to the same level of quality, we want to ensure that our customers continue to receive the best possible performance. This is why we are focusing on the tried-and-tested Ultra Power, which we will be delivering in larger quantities in the coming months”.

Visitors to the FLORIAN trade fair can take a closer look at the ZIEGLER Ultra Power on site.

### Ready for every emergency

In addition to components, ZIEGLER will of course also be presenting a wide selection of emergency vehicles, including both demonstration models and customer vehicles. The focus will be on the HLF 20, the MLF and the GW-L 2, all of which are optimised for their specific areas of use. The HLF 20 on MAN chassis is ideally equipped for firefighting as well as technical assistance. With its extensive equipment and high performance, it is an indispensable partner in operations. The medium fire engine (MLF) impresses with its compact design and high manoeuvrability, which makes it particularly suitable for operations in narrow lanes. The GW-L 2 offers generous storage space and maximum flexibility, ideal for a wide range of deployment scenarios.

Visitors will also have the opportunity to see a TLF 4000 at the Unimog partner booth which will provide further insights into the wide spectrum of applications for ZIEGLER vehicles, especially in forest fires. Visitors of the FLORIAN trade fair can therefore look forward to the almost complete ZIEGLER portfolio and experience the products live. The colleagues on site will be on hand to provide interested guests with specialist advice and expertise and will be happy to answer any questions.
