SPARE PARTS

■ Pump spare parts

Current spare parts for vehicle-mounted pumps and portable pumps.
Further parts on request.

227007   Ball valve D DN 50, PN 16

with thread G 2 1/2" and with square flange, incl. size B coupling

745231   Ball valve DN 32, PN 16, right, with grip

with thread G 1 1/4" and with square flange

165131   Grip for operating lever

174423   Shift lever for ball valve NW 50

754662   Shaped ring NW 50 for ball valve AWG

100144   Round sealing ring 110x135x23 for suction cover FP 16/8

754661   Shaped ring NW 32 for ball valve DN 32 AWG*

651103   Pressure valve B, G 2 1/2"

with thread G 2 1/2" for size B coupling and with square flange

102748   Pressure valve size B with square flang

651123   Valve plate for pressure valve size B

753611   O-ring 93x3*

651122   Valve spindle RD 20x1/8"

112548   Ball valve DN 10/PN 15

Thread M 16x1,5.

234601   Spindle seal

742421 Circlip 60x65x2,5 for suction strainer size B

651108 Fuel valve M16x1
for TS 8/8 VW with Boxer engine type 122 or type 126, built from 1968 onwards.

159593 Replacement valve without filte
for TS 8/8 Ultra-Light.

192858 Replacement valve without filte

651109 Adjusting screw M6x35 with nut

100413 Filler cap for fuel tank
for all TS 8/8.

098810 Pump grease, 400 g cartridge*

111397-S Set of sealings for Trokomat up to 1996

181008-S Set of sealings for Trokomat from 1996 onwards

113031-S Set of sealings for TS 8/8-1, type 81*

116877-S Set of sealings for TS 8/8-2 + TS 16/8, type 81*

196419-S Set of sealings for TS 8/8-1 Ultra-Light*

196673-S Set of sealings for TS 8/8-1 Ultra-Power*

196014-S Set of sealings for FP 8/8-1 V12*

140882-S Set of sealings for FP 8/8-1 V20*

196028-S Set of sealings for FP 16/8-1 V19 BZS*

196071-S Set of sealings for FP 16/8-1 H from 06/1982 onwards*

**125262-S Set of sealings for FP 16/8-1 H up to 05/1982***

196072-S Set of sealings for FP 16/8-1 HH from 06/1982 onwards*

**196074-S Set of sealings for FP 16/8-1 HH up to 05/1982***

196433-S Set of sealings for FP 2,5/40 from 1998 onwards*

136381-S Set of sealings for pressure valve B

140015	1	Running hour meter Centrifugal Fire Pump
159641	2	Overpressure gauge output high pressure pump
162778	3	Overpressure gauge tank f lling line
214174	4	Level indicator water tank
188358-S	5	Control lamp turret extended
206334-S	6	Push-button gun feed line OPEN/CLOSED
201880-S	7	Push-button Tri-Blitz ON/OFF
201852-S	8	Push-button roof light ON/OFF
120838	9	Running hour meter Centrifugal Fire Pump
174629	10	Rotary regulator TOURMAT D
115272-S	11	Push-button TOURMAT D ON/OFF
115291-S	12	Push-button Centrifugal Fire Pump ON/OFF
167010	13	Overpressure/underpressure gauge pump suction side
201851-S	14	Control lamp compressed air system
145096-S	15	Push-button increase motor revolutions

167009	16	Overpressure gauge output normal pressure pump
145094-S	17	Push-button reduce motor revolutions
196767-S	18	Push-button pumping ON/OFF
223250-S	19	Toggle switch loudspeaker radio ON/OFF
223223-S	20	Toggle switch rapid intervention equipment right
145098-S	21	Control lamp high pressure pump ON
223222-S	22	Toggle switch rapid intervention equipment left

140015	1	Running hour meter Centrifugal Fire Pump		197913-S	16	Push-button pumping ON/OFF
1039279	2	Loudspeaker radio		115272-S	17	Push-button TOURMAT D ON/OFF
	3	Joystick lamp bridge light pole*		223249-S	18	Toggle switch level control - water container OFF
214174	4	Level indicator foam tank		196774-S	19	Push-button foam OPEN/CLOSED
214174	5	Level indicator water tank		167936-S	20	Push-button zero position lamp bridge
162778	6	Overpressure gauge tank f lling line		223251-S	21	Toggle switch roof light ON/OFF
174629	7	Rotary regulator TOURMAT D		223250-S	22	Toggle switch loudspeaker ON/OFF
167009	8	Overpressure gauge output normal pressure pump		201880-S	23	Push-button Tri-Blitz ON/OFF
167010	9	Overpressure/underpressure gauge pump suction side		188358-S	24	Control lamp turret extended
162779	10	Overpressure gauge compressed air system		148730-S	25	Push-button gun feed line OPEN/CLOSED
120838	11	Speed counter Centrifugal Fire Pump		193926		Loudspeaker grid cover
	12	Main switch f re f ghting system		108328		Loudspeaker
115291-S	13	Push-button Centrifugal Fire Pump ON/OFF		167009		Pressure gauge
145096-S	14	Push-button increase motor revolutions		167010		Pressure gauge
145094-S	15	Push-button reduce motor revolutions		220311		Panel for pump module
				189281		Bracket for modular pump control panel BKT
				196756-S		Main switch for expansion stages

* Further information on request!

■ Profile system 4

Suitable to build variable fixt res. All profiles re pressed-finish design. Special cuts possible on request against extra charge.

152112   Rail profile 45x17, not anodized, length 6000 m

Profile system 45 - rail rofile 45x17, for variable locker partitions

152111   Rail profile 45x32, not anodized, length 6000 m

Profile system 45 - rail rofile 45x32, for variable locker partitions

152110   Rail profile 45x45, not anodized, length 6000 m

Profile system 45 - rail rofile 45x45, for variable locker partitions

178929   Partition profile, not anodized, length 6000 m

Profile system 45 - partition rail rofile 45x103 for partitions

152106   Cover profile for rail, for   rofile system 4

163820   Carrier fixation compl. 4x M8, for   rofile system 4

Angle plate 50x50 with fixing material

202711   Carrier fixation compl. 2x M8, for   rofile system 4

Angle plate 35x30 with fixing material

179285   Angle plate 50x30x25 mm for Torx,
**   M8 with 3 counterbores**

Profile system 45 - angle plate 50x30x25 with 3 counterb res M8, without fixing material

198532   Angle plate 80x53x28 mm right,
**   M8 with 3 counterbores 28 - 25**

Profile system 45 - angle plate displaced to the right 80x53x28 mm.

179283   Angle plate 50x50x25 mm for Torx,
**   M8 with 4 counterbores**

Profile system 45 - angle plate 50x50x25 with 4 counterb res M8, without fixing material

**198530   Angle plate 80x53x28 mm left,
            M8 with 3 counterbores 28 - 25**

Profile system 45 - angle plate displaced to the left 80x53x28 mm.

**202314   Angle plate 35x30x25 mm for Torx,
            M8 with 2 counterbores**

Profile system 45 - angle plate 35x30x25, without fixing materia

**203638   Angle plate 40x30x25 mm for Torx,
            M6 with 1 counterbore Ø 6,5**

Profile system 45 - angle plate 40x30x25, without fixing materia

171534   Carrier fixation compl. 3x M8, for   rofile system 4

Angle plate 50x30 with fixing material

152098   Floor fixation compl. 45x17 for   rofile system 4

152097   Floor fixation compl. 45x32 for   rofile system 4

152096   Floor fixation compl. 45x45 for   rofile system 4

176301   Floor fixation compl. 45x75 for   rofile system 4

225725   Corner piece, pre-assembled, for profile system 4

with fixing material

**225727   Connecting strap, pre-assembled, for aluminium
            superstructure**

225726   Variable connector, pre-assembled, for profile system 4

with fixing material

152100   Hammer head nut M5 for profile system 4

for inserting and connecting.

152099   Hammer head nut M6 for profile system 45

for inserting and connecting.

152101   Hammer head nut M8 for profile system 45

for inserting and connecting.

■ Brackets for breathing apparatus and spare cylinders

Slide for BA-units of extruded sections with ball guides and longitudinal slots for variable mounting. At individual orders the corresponding space required has to be demanded in advance. Customized orders cannot be returned.

208705   Slide, length 504 mm, total length 543 mm, extruded section, Accuride rail*

of extruded sections, carrying load max. 140 kg. With longitudinal slots for variable mounting. Dim. (total lengthxWxH): approx. 543x330x84,5 mm

229244   Slide, length 504 mm, total length 543 mm, width 454 mm

Heavy-duty version. Carrying load max. 220 kg. Dim. (total lengthxWxH): approx. 543x454x84,5 mm

203648   Slide, length 540 mm, total length 579 mm*

of extruded sections, carrying load max. 140 kg. Dim. (total lengthxWxH): approx. 579x330x84,5 mm

229422   Slide, length 540 mm, total length 579 mm, width 454 mm*

Heavy-duty version. Carrying load max. 220 kg. Dim. (total lengthxWxH): approx. 579x454x84,5 mm

205077   Slide, length 654 mm, total length 693 mm

of extruded sections, carrying load max. 140 kg. With longitudinal slots for variable mounting. Dim. (total lengthxWxH): approx. 693x330x84,5 mm

229246   Slide, length 654 mm, total length 693 mm, width 454 mm*

Heavy-duty version. Carrying load max. 220 kg. Dim. (total lengthxWxH): approx. 693x454x84,5 mm

218052   Slide, length 704 mm, total length 743 mm*

of extruded sections, carrying load max. 140 kg. With longitudinal slots for variable mounting. Dim. (total lengthxWxH): approx. 743x330x84,5 mm

1016481   Slide, length 704 mm, total length 743 mm, width 454 mm*

Heavy-duty version. Carrying load max. 220 kg. Dim. (total lengthxWxH): approx. 743x454x84,5 mm

205325   Slide, length 806 mm, total length 845 mm*

of extruded sections, carrying load max. 140 kg. With longitudinal slots for variable mounting. Dim. (total lengthxWxH): approx. 845x330x84,5 mm

1010776   Slide, length 806 mm, total length 845 mm, width 454 mm*

Heavy-duty version. Carrying load max. 220 kg. Dim. (total lengthxWxH): approx. 845x454x84,5 mm

229247   Slide, length 908 mm, total length 947 mm, width 454 mm*

Heavy-duty version. Carrying load max. 220 kg. Dim. (total lengthxWxH): approx. 947x454x84,5 mm

203656   Slide, length 958 mm, total length 997 mm*

of extruded sections, carrying load max. 140 kg. Dim. (total lengthxWxH): approx. 997x330x84,5 mm

203661   Slide, length 1060 mm, total length 1099 mm*

of extruded sections, carrying load max. 140 kg. Dim. (total lengthxWxH): approx. 1099x330x84,5 mm

242603   Slide, length 1060 mm, total length 1099 mm, width 454 mm*

Heavy-duty version. Carrying load max. 220 kg. Dim. (total lengthxWxH): approx. 1099x454x84,5 mm

204856   Slide, length 1137 mm, total length 1176 mm*

of extruded sections, carrying load max. 140 kg. With longitudinal slots for variable mounting. Dim. (total lengthxWxH): approx. 1176x330x84,5 mm

229249   Slide, length 1137 mm, total length 1176 mm, width 454 mm*

Heavy-duty version. Carrying load max. 220 kg. Dim. (total lengthxWxH): approx. 1176x454x84,5 mm

229243   Slide, length to customer specification, width 454 mm

Heavy-duty version. Carrying load max. 220 kg. Special design on request. Width: approx. 454 mm, height: approx. 84,5 mm

203477   Slide for BA, length 540 mm

Rigid, for two BA units. Without BA brackets 218863. Length: approx. 540 mm

1021555   Slide for BA, length 654 mm*

Rigid, for two BA units. Without BA brackets 218863. Length: approx. 654 mm

1025779   Slide for BA, length 806 mm*

Rigid, for four BA units. Without BA brackets 218863. Length: approx. 806 mm

1003059   Slide for BA, length 956 mm*

Rigid, for two BA units or 4 spare cylinders. Without BA brackets 218863.

194631   Slide for BA, length 1060 mm*

Rigid, for 4x 6/6,8 l units, 2-side withdrawal. Length: approx. 1060 mm

203563   Slide for BA, length 538 mm

Pivoting, for two BA units. Without BA brackets 218863. Length: approx. 540 mm

203581   Slide for BA, length 538 mm

Pivoting/hinged, for two BA units. Without BA brackets 218863. Length: approx. 540 mm

203564   Slide for BA, length 538 mm*

Rotatable/rigid, for two BA units (no 2-cylinder units). Without BA brackets 218863. Length: approx. 540 mm

1016005   Slide for BA, length 504 mm

Hinged, narrow design. Length: approx. 504 mm

1016003   Slide for BA, length 504 mm*

Hinged, with connecting bar. Length: approx. 504 mm

203509   Slide, length xxxx, total length xxxx*

of extruded sections, carrying load max. 140 kg. Width: approx. 330 mm

194246   Slide for BA, rigid

202595   Slide for BA, pivoting

194450   Frame for BA, length 340 mm
Dim.: approx. 340x200x450 mm

194448   Frame for BA, length 538 mm
Dim.: approx. 538x200x450 mm

200692   Frame for BA, length 730 mm
Dim.: approx. 730x200x495 mm

194449   Frame for BA, length 910 mm
Dim.: approx. 910x200x450 mm

212073   Frame for BA*
Length: 1058 mm

196663   Bracket for 4 BA cylinders, 2x 2 cylinders, version A*

218725   Storing device for replacement cylinders, 2x 2 cylinders
for 4x 6 or 6,8 l cylinders, horizontal. Dim.: approx. 645x360x410 mm

218703   Storing device for replacement cylinders, 1x 4 cylinders, 6 l cylinders
for 4x 6 or 6,8 l cylinders, horizontal. Dim.: approx. 645x635x200 mm

201127   Frame for storing device for replacement cylinders
4 l, 6 l, 6,8 l vertical (without BA brackets 218863).

208900   BA bracket, pipe Ø 20 mm
adjustable to accommodate one- or two-cylinder units with steel cylinders, backward seating. Dim.: approx. 1000x560x250 mm

208901   Frame for back rest and head rest, round pipe Ø 20 mm

Dim.: approx. 1000x400x310 mm

218863-S   Bracket compl. for BA unit*

153374   Head rest

of PU-foam. Dim.: approx. 256x50x250 mm. We recommend to order as well 2 protective covers for backrest and headrest (art. no. 114253)!

122172   Back rest

Dim.: approx. 400x240x90 mm. We recommend to order as well 2 protective covers for backrest and headrest (art. no. 114253)!

110063   Seat of integral foam for driver/crew cabin

Dim.: approx. 410x380x70 mm. We recommend to order as well 2 protective covers for backrest and headrest (art. no. 114253)!

**224506   Storage box driver/crew cabin**

Dim.: approx. 415x360x320 mm

224511   Working table, folding

Dim.: approx. 1015x440x190 mm

with: 1 electric blower, 4 bells, 10 m air hose, 2 angle brackets, 2 roof lead-throughs, 1 relay. Without installation material.

Round beacon lights and warning units on request!

■ Lightmast, lamp holder and attachments

Various types as well as installation and dismounting versions are possible.

1025466   Pneumatic lightmast 5 m, to mount on rear wall with swivelling wall

Manually rotatable, electrically inclinable.

1024919   Crank handle lightmast 5 m, to mount on rear wall with swivelling wall

Manually rotatable, electrically inclinable.

1025469   Crank handle*

for electrically rotatable and inclinable lightmast, 5 m, VW, Köttgen, masthead Fireco.

1027783   Pneumatic lightmast 4,6 m, Fireco, masthead with junction box*

Electrically rotatable and inclinable, retracted height 1395 mm.

211254   Pneumatic lightmast 2,4 m, with hand pump

Retracted height 1150 mm, extended height 2400 mm. 3 sections. Rotatable. Inside cable 4x1,5 with cable exit downwards.

1013644   Lamp holder for 4 - 6 xenon

1009352   Manual control device for lightmast

Lamp bridge control. Dim.: approx. 270x110x90 mm

222644   Bracket for control device for lamp holder

1049174   Fitting for swivelling equipment wall*

for light mast RAL 3000.

■ Ladder gantries

Ladder frame scaling ladder

Of aluminium, with infinitely adjustable mounting feet, thus the ladder frame can be optimally adjusted.

216839	Ladder gantry, 4-part, scaling ladder for roof box mounting

216841 Ladder gantry, 4-part, scaling ladder, length of superstructure from 3480 mm

of aluminium. Mounting feet infinitely adjustable in height. All scalin ladder gantries are approx. 660 mm wide (measured across the mounting feet). Total width incl. mounting bracket for pike pole: approx. 770 mm

216915 Ladder gantry, 4-part, scaling ladder, length of superstructure from 3380 mm*

of aluminium. Mounting feet infinitely adjustable in height. All scalin ladder gantries are approx. 660 mm wide (measured across the mounting feet). Total width incl. mounting bracket for pike pole: approx. 770 mm

216918 Ladder gantry, 4-part, scaling ladder, length of superstructure from 3380 mm*

of aluminium special version right. Mounting feet infinitely adjustable in height. All scaling ladder gantries are approx. 660 mm wide (measured across the mounting feet). Total width incl. mounting bracket for pike pole: approx. 770 mm

216925 Ladder gantry, 3-part, extension ladder, roof box from 2645 mm*

of aluminium. Mounting feet inf nitely adjustable in height. All extension ladder gantries are approx. 660 mm wide (measured across the mounting feet). Total width: approx. 670 mm

216924 Ladder gantry, 3-part, extension ladder, length of superstructure from 2880 mm - 3379 mm*

of aluminium. Mounting feet inf nitely adjustable in height. All extension ladder gantries are approx. 660 mm wide (measured across the mounting feet). Total width: approx. 670 mm

216935 Ladder gantry, 3-part, extension ladder, length of superstructure from 3380 mm*

of aluminium. Mounting feet infinitely adjustable in height. All scalin ladder gantries are approx. 660 mm wide (measured across the mounting feet). Total width: approx. 670 mm

■ Pressure hose reels

We offer hose reels for quick-intervention units for the installation in vehicles in two basic types:
• ˜coiling by hand crank (direct drive)
• ˜electrical coiling

The advantages of all hose reels are as follows:
• ˜safe operation with normal and high pressure
• ˜suitable for right-hand or left-hand installation
• ˜for coiling of hoses of different lengths and different diameters
• ˜equipment with all coupling systems
• ˜adjustable brake and clamping device
• ˜simple fixing (only 4 screws are required)

1048667	Pressure hose reel '08, 500x665 right

1048681	Pressure hose reel '08, 500x665 right*

for chain wheel drive.

■ AZ roller shutters

The AZ shutter is used to close dust-proof and largely water-tight equipment lockers or similar. AZ shutters will be supplied as installation kits in the desired dimensions with the necessary accessories.
For your inquiry respectively order please demand the form "Order structure AZ shutter" where the dimensions required for an offer have to be stated.
The roller shutter will be pre-finished mounted and will be installed in the equipment locker. The height of the equipment locker opening determines the quantity of lamellas and the diameter of the rolled-up AZ shutter.
The installation kit includes the guiding profiles, sealings, spring shaft and all mounting parts as well as the magnet switch.

■ Slide trays

Tilt and slide trays of aluminium alloy profile

Mechanism allows tray to slide out and be removed from rack. Damped action when reaching extended position. Latch release by push button in dual grip handle (ZIEGLER). Within the max. dimensions of approx. 2200x1000 mm trays can be manufactured to almost any size.
Scope of delivery includes guide rails, stoppers and roller bearings.

Dimensions:
Height of rim: 125 mm, required clearance depending on installation and/or equipment accomodated in tray.
Inner width = A - 54 mm
Inner length = B - 44 mm
Max. load approx. 100 kg

How to order?
1. Measure depth of space available (FT)
2. Measure width of space available (FB)
3. Depth of tray B = FT - 110 mm
4. Width of tray A = FB - 48 mm
5. Length of guide rails
   F = B + 100 mm
   (Guide rails to be cut to length during installation.)

Determine sizes A + B and order.

164369	Slide A1

Slide-to-measure.

121681	Double push button hand grip

to unlock by push button. Dim.: approx. 300x32x39 mm

compl. with disc and spring.

161969	Roll holder with ball bearing, left*

161970	Roll holder with ball bearing, right*

122382	Endpiece for drawer up to 1996*

163132	Endpiece for drawer from 1996*

■ Fire hose trays

of aluminium alloy profiles. Mechanism allows tray to slide out and be removed from rack. Damped action when reaching extended position. Cut-out hand grips in the side rims facilitate removal of tray. Latch release by push button in dual grip handle (ZIEGLER). An opening in the front rim of the tray allows hoses to be pulled out.
Within the max. dimensions of approx. 2200x1000 mm trays can be manufactured to almost any size.
Scope of delivery includes guide rails, stoppers and roller bearings.

Dimensions:
Height of rim: 135 mm, required clearance depending on installation.
Inner width = A - 54 mm
Inner length = B - 44 mm
Max. load approx. 80 kg of size B fire hose/m².

How to order?
1. Measure depth of space available (FT)
2. Measure width of space available (FB)
3. Depth of tray B = FT - 130 mm
4. Width of tray A = FB - 24 mm
5. Length of guide rails F = B
   (Guide rails to be cut to length during installation.)

Determine sizes A + B and order.
The opening in the front rim is always in the centre of the width (A).
